Enthusiastic Full-Stack Developer with intermediate skills in both front-end and back-end development. Experienced in building responsive, interactive web applications and passionate about creating efficient and user-friendly solutions.

---

## Skills:

**Front-End:** CSS3, HTML5, JavaScript (ES6+), Responsive Design, Bootstrap, Tailwind CSS

**Back-End:** Node.js, Express, RESTful APIs, MongoDB, SQL (PostgreSQL, MySQL)

**Cloud & DevOps:** AWS EC2, S3, IAM, VPC, CloudWatch, Linux fundamentals, Bash scripting, Cloud deployment basics, Monitoring & troubleshooting, Intro to CI/CD

**Data & Analytics:** SQL querying, Data cleaning & validation, Exploratory Data Analysis (EDA), Tableau, Excel (Pivot Tables, VLOOKUP), Data visualization, Data-driven decision-making

**Programming & Tools:** Python, Git, GitHub, VS Code, Webpack, Agile Methodologies

---

## Projects:

### 1. Personal Portfolio Website

*Built a responsive, interactive portfolio showcasing projects, skills, and achievements. Utilized HTML, CSS, and JavaScript for a sleek, professional design.*

### 2. Music Blog Demo

*Developed a multimedia-rich blog platform featuring articles, artist profiles, and a media player. Focused on user-friendly navigation and responsive design.*

### 3. TechEdge Survey Platform

*Created an interactive survey tool with real-time results. Implemented multiple question types, data validation, and immediate feedback to enhance user engagement.*

### 4. Restaurant Staff Management

*Designed an application to streamline restaurant operations, including staff management, order tracking, and inventory control. Aimed at improving efficiency and daily task management.*
